

# NRAO 50<sup>th</sup> Anniversary Science Symposium “Frontiers of Astrophysics”

## Proceedings Information for Poster Papers

The symposium proceedings will be published in the Astronomical Society of the Pacific (ASP) Conference Series, as a volume to be edited by Alan Bridle, Jim Condon, and Gareth Hunt of the NRAO. You are invited to contribute the abstract of your poster to this volume.

**The deadline for receipt of final poster abstracts for the publication is Friday, August 17, 2007. Please send your abstract as LaTeX source text by email to [nrao-50@nrao.edu](mailto:nrao-50@nrao.edu).**

Abstracts will be limited to one proceedings page as formatted with the ASP Conference Series style asp2006.sty. Depending on the size of the author and affiliations listings, this limit will correspond to about 350-400 words.

If you wish to verify that your abstract fits the format, please download asp2006.sty from the conference web site [www.nrao.edu/50/](http://www.nrao.edu/50/) (‘Proceedings’ link) or from the ASP authors’ information web site [www.aspbooks.org/author\\_information/](http://www.aspbooks.org/author_information/) and run LaTeX on your source file with the command `\usepackage{asp2006}` in its preamble.

You must also sign a Publication Agreement and Copyright Assignment with the ASP (attached) for each published abstract. **Please give your signed copyright agreement to Laurie Clark before you leave Charlottesville if you want your abstract to be included in the proceedings.** If you sign this agreement but do not revise your abstract, we will work with the version that you sent us before the meeting.

Please do not hesitate to contact us by email at [nrao-50@nrao.edu](mailto:nrao-50@nrao.edu) or by telephone at the numbers listed below if you have any questions.

**Alan Bridle (tel. 434-296-0375)**  
**Jim Condon (tel. 434-296-0322)**  
**Gareth Hunt (tel. 434-296-0290)**
