

SHIP TO NUMBER QUICK REFERENCE

Note: This chart lists the Ship To numbers for all NRAO shipping destinations. These numbers may be entered in the [Ship To](#) field of the Order Header on requisitions and credit card orders to indicate the location to which materials should be shipped.

Please see the [Requisition Entry and Review](#) user manual or the appropriate [Quick Reference Guide](#) for more detailed instructions on entering requisitions and credit card orders.

If your destination is not included in this chart, you can use the magnifying glass button to perform a search for the correct Ship To number. Enter "nrao*" (without the quotes) in the [Name Search](#) field and click **Find**. The various NRAO locations and their corresponding numbers will appear in the Records grid. Choose the one you want and click **Select**.
