Dr. Howard Gentry,
Plant Introduction Section,
U.S.D.A. Plant Industry,
Beltsville, Maryland,
U. S. A.

Dear Dr. Gentry,

Recently Prof. C. A. Schroeder of Botany Department, U.C.L.A., has informed me that you have a program upon Dioscorea. I would be interested to learn some general features of the program and receive copies of any reprints which may be available. My interest relates to phyllotaxy and cortisone.

Your consideration, comments and suggestions will be much appreciated.

Yours faithfully,

Grote Reber.
