

28th May 1958  
General Delivery  
Wailuku, Maui, Hawaii

Mr. R.W.H. Wright  
Physics Department  
University of Ibadan  
Ibadan, Nigeria  
Africa

Dear Mr. Wright:

This letter follows up my note of 7th December 1955. Enclosed are further reprints which you may find interesting. I will be interested to learn what studies you may have conducted on the subject of Spread F and their results. The data at Kihai, Maui continues to follow a pattern similar to the past. Kihai is now a southern hemisphere station as the Spread F equator has passed to the north of here now.

After about early August my address will be

Grote Reber  
National Radio Astronomy Observatory  
P.O. Box 2  
Green Bank, West Virginia, U.S.A.

Along about 1960-1 when the present high solar activity has died down a bit I expect to find my way back to Australia and conduct further observations of cosmic static at long waves.

Very truly yours,

*Grote Reber*
