Dr. Woodruff T. Sullivan, III  
Department of Astronomy  
University of Washington  
Seattle, Washington 98195

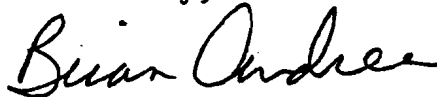

Dear Dr. Sullivan:

This will respond to your letter of November 22nd addressed to our New York office. Regrettably, because of the consolidation and shift of offices, there has been an unavoidable delay in our response.

Our records show that three grants were made to Grote Reber over the period 1952 through 1973. These awards totalled in chronological order \$49,123; \$117,000; and \$47,821. In fact, Grote Reber is still kicking around as the copy of a recent letter from him will indicate.

Providing copies of Grote's proposals will be a little bit more difficult because some of those materials are stored away in relatively inaccessible spots. I will attempt to extract this information for you by the end of January, and if you've not heard from me, please feel free to give a call or drop a note to me here at the Tucson address.

Sincerely,

Brian Andreen
