

RESEARCH CORPORATION

DIVISION OF GRANTS
405 LEXINGTON AVENUE
NEW YORK 17

CHARLES H. SCHAUER
VICE PRESIDENT and SECRETARY

December 31, 1960

Dear Mr. Reber:

You have a letter from E. K. Gannett, Managing Editor of PROCEEDINGS OF THE IRE (from the Institute of Radio Engineers) as follows:

"This will acknowledge, with thanks, your communication dated December 5, concerning the topic 'High Gain Triode of Forty Years Ago.'

"We regret to inform you that it is too long as it now stands to publish in the Correspondence section of the PROCEEDINGS OF THE IRE. We have room only for any combination of Tables and curves which add up to four pages.

"Thank you very much for your interest in submitting this letter to us for our consideration."

We will hold the article and the charts until we have received word from you as to their disposition.

You have also received a box, via Green Bank, from H. Hartluke, Old Greenwich, Connecticut. I believe you had a letter from him which mentioned what he would be mailing to you. We will send the package to Bound Brook with the next batch of stuff which will be going there from this office.

I called Mr. Campbell at Bound Brook about your shipment. He had had word that the heat pump was shipped by the Westinghouse people on December 27th so that it should arrive early next week, and your shipment will then be on its way. We'll let you know as soon as it is shipped.

Sincerely yours,

Jennie Ewanoski
