Dear Mr. Kunz:

Thank you for your letter of the 15th March which found its way to me here after much forwarding. My work at Green Bank was completed last October. All my old gear is now in storage at Bound Brook, N.J. pending my return in a year or so.

If you still have the Acme T.R.F., the Madison Moore superhet and the UL1009 inductor, I would be interested in purchasing these. Please let me know by air letter. I will have a remittance sent from NYC and you can pack and ship by railway express collect to N.J.

A friend of mine may be interested in the remains of the Baird receiver. I suggest that you mention my name and contact

Mr. Warren L. Green  
So. 4214 Conklin St.  
Spokane, Washington.

The material you sold me in the past was quite satisfactory and I was well pleased. Perhaps we can do some more business. Your comments and suggestions will be appreciated by me.

73,

*Grote Reber*
