Dr. Grote Reber,
General Delivery,
Bothwell,
Tasmania,
AUSTRALIA 7411.

Dear Dr. Reber:

We are sending you a 2-volume set of Peter Dewdney's Thesis on an aperture synthesis radiotelescope and deep sky survey at 22 MHz. This is the most complete description available.

We hope that the astronomical results will soon be published but final reduction is not yet complete.

I hope that you will visit us again the next time you are in North America. We all enjoyed your last visit.

Best regards,

John Galt
