CHARLES H. SCHAUER, SECRETARY
DIRECTOR, DIVISION OF GRANTS

August 29, 1956

Mr. Grote Reber
G.P.O., Hobart
Tasmania, Australia

Dear Grote:

Thanks for the fascinating letter of August 15th. It greeted me on my return here from a pleasant few weeks in the Canadian bush country, which I am afraid can't compete with your current surroundings for mud, rain, or animal life. On the score of accessibility, I think it could compete and maybe offer some improvements as far as removal from other contacts is concerned. The animal life is rather conventional, however, with chipmunks, red squirrels, porcupines, deer, and an occasional bear, with a few wolves in the acoustic distance for trimming.

Glad to hear that things are getting pretty well pinned down, even though your schedule has been delayed somewhat substantially. Continuing best wishes for it. It sounds as though the antenna system provided more than the normal complement in trouble and installation.

Incidentally, we have received a bill for 200 reprints of "World-wide Spread F." I assumed that these were yours and have taken care of it.

Continuing best wishes and look forward to the next epistle from down under.

Sincerely,

Charles H. Schauer
