Mr. H. H. Ramsey
Research Corporation
600 California Street
San Francisco, California

Dear Mr. Ramsey:

Presently, I am out here closing up my affairs atop the volcano. On the 12th May I arrive in Los Angeles for a few days and intend to find my way up to San Francisco about the 20th. If you will be available then, I'd like to meet you at your convenience.

There is no particular business, but I thought I'd indulge my hobby a bit. I have been in correspondence with Mr. Paul Giganti, 2429 San Carlos Ave., San Carlos who is reputed to have a fine collection of early radio apparatus. There is also another man named Douglas Berham in New Almaden who runs a small museum, and probably others in the San Francisco area. I intend to stay a week or so and see what these people have. If you're interested in this kind of thing, perhaps you would like to help see what I can dig up.

Sincerely yours,

Grote Reber
