MEMO TO: I. I. Rabi
FROM: Charles F. Dunbar
SUBJECT: Joseph L. Pawsey

Attached is copy of letter I have just sent to Dr. Pawsey. I will call Paul Scherer in the morning and let you know the result.

Andy does not consider the petition route in any way impractical, but the time factor is awkward.

Would there be any virtue in suggesting to Dr. Pawsey that he go to Europe at the beginning of his trip and to California after seeing you and visiting the Observatory?
