Bob Farmer
Plainview, Texas.

Dear Sir:

This letter is in response to your ad in QST. I am trying to secure some information about a Remler (or Sargent) Infradyne receiver. It was manufactured on the west coast and apparently described in "Radio" for August 1926. I would like to buy a copy of the above magazine and/or whatever other magazines you may have which give information on this receiver. Please advise details of what is available and cost including parcel post to Green Bank.

Very truly yours,

Grote Reber
