Dear Grote:

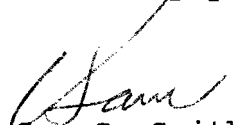

Jennie is away on vacation in the golden West, Hap is among the pines-porcu and other varieties-, and I am left to watch the store.

Literature on plastic scintillation materials has been requested as per the enclosed letter copies.

What with helping evolution along and winding up all the other matters that are hanging you must be having a busy time, so I shall not prolong this. We look forward to hearing from you of your adventures firsthand.

All the best.

Sincerely yours,

Sam C. Smith
