

RESEARCH CORPORATION

DIVISION OF GRANTS

405 LEXINGTON AVENUE

NEW YORK 17

CHARLES H. SCHAUER
VICE PRESIDENT and SECRETARY

July 13, 1962

Dear Mr. Reber:

Your letter of July 9 and the unused ticket arrived yesterday. I've made the reservation from Sydney to San Francisco which you requested (Tuesday, Aug. 21, flt. #586, leaving at 1900 and arriving in San Francisco the same day at 1630), as well as a reservation on TWA, leaving San Francisco Wednesday morning the 22nd at 8:30 A.M., flt. #134 - changing in Chicago to their flt. #300, arriving in Columbus at 4:47 P.M.

It will be simpler to pick up the tickets using one of the men's air credit cards. They are not here this week but Dr. Smith will be around next week. If he has the kind of universal card which I can use, I will get the tickets then. If not, Mr. Schauer will be returning to the office the week of July 23rd and that will still be time enough to pick them up.

Your 50 shares of F.W. Means & Co. Common Stock arrived from Chicago, and that certificate has been placed with the others in the file-safe in Mr. Schauer's room. I'll probably be around when you want to look at your things in there, if you do, but if not someone else will have the key available.

You have received, compliments of the author, a copy of "Radio Telescope Structures," by Jacob Feld, published by the N.Y. Academy of Sciences.

Also received recently are:

From the National Research Council, Ottawa: "A Parametric Amplifier for the 10.7-CM. Compound Interferometer," by Richard F. Clark and Arthur E. Covington; and "Selected High-Resolution Strip Scans of the 10.7-CM Sun," by Covington, Gladys A. Harvey and Helen W. Dodson.

From Calif. Inst. of Technology Radio Observatory: "Tests for Linear Polarization in the 1390 MC/S Radiation from Six Intense Radio Sources," by D. Morris and V. Radhakrishnan.

The American Institute of Physics would like to have you fill out a form for the "National Register of Scientific and Technical Personnel." Unless you want it sent to you out there, I will acknowledge and bring to your attention when you arrive.

Sincerely,

Jennil
