

# Pineapple

- 17/9/65 Harvested pineapple, a bit over ripe + very sweet and juicy. Rather small.
- 20/9/65 Planted top in new plastic pot.
- 15/10/65 Second plant starting to grow.
- 22/11 Second plant doing well.
- First plant has new small shoot coming up thru leaves at side of old stalk where pineapple was removed.
- 10/12/65 Removed 2nd plant from plastic pot and put in 5 gallon drum.
- 17/12/65 2nd plant doing well. New shoot 3" high.
- 17/1/66 Both plants doing well, over 8" high.
- 21/2 Both plants about 15" high. Many very green leaves.
- 14/3 Old plant has another shoot from base about 3" long. Both plants have main shoots nearly 20" high.
- 25/4 Both plants healthy + getting larger.
