New York 17, New York
U.S.A.

Dear Hap:

Thanks for your interesting letter of the 19th. I gather that you have been talking to Emberson and that in Green Bank, at least the politics are going full blast! The Loran equipment is not worth a lot of friction. I suggest that you drop the matter. We will be able to scrape along without the services of AUI/NRAO.

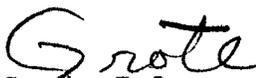

Your trip is well timed as I arrive on Quantas flight EN772 at Honolulu on the 16th March at 830AM. This flight gets into Honolulu eight hours before it leaves Sydney.

In regard to long range plans, I haven't any. Presently, I'm just looking about to see what worthwhile scientific openings may be available. We can discuss the possibilities when we get together. I hope that you can spend at least two days on Maui so that I can show you around in some detail. Please let me know when you will arrive in Honolulu. I can be contacted as

Grote Reber
c/o Charles Penhallow
