

January 31, 1961

Dear Mr. Reber:

The enclosed copies from Mr. Campbell concern your shipment. He regrets its further delay due to having to secure an export license but it is now finally on its way. Please note that you have to sign Form FC-842 and return it to the Dept. of Commerce as indicated in Mr. Campbell's memo.

We have ordered the items from Maritime International and James Smith, for delivery to Bound Brook.

I'm sending the income tax forms, instruction book and the deposit slips from the bank by sea mail. I see a big batch of stuff has been forwarded to you here from Green Bank. Will either include some of that or report what is there.

Some of your summer would be much appreciated around here. We've had several snowstorms and a steady diet of below freezing weather for several weeks now. The city seems discouraged too as many of the side streets are still clogged with the snow of couple weeks ago. Mr. Schauer is going off on Monday for two weeks in the Southwest and California.

Sincerely,

Jennie Ewanoski
