Dear Dr. Reber,

Thank you for your further letter of 22nd January together with the note and separate of your work. These were all awaiting my return from leave.

This is interesting work in which you are engaged but so far as I am aware we have little here which would be of assistance to you. However, a copy of our Index Seminum<sup>1</sup> is being forwarded to you and if there are any items in which you would be interested please let us know and we would be happy to forward them to you.

With kind regards and best wishes for further successes.

Yours sincerely,

T.R.N. Lothian
