Bothwell, Tas
Australia, 7030

Dear Grote,

This is to let you know that your gear has finally arrived in Green Bank, all 98 boxes apparently intact.

As you will appreciate, it will be possible to display only as small fraction of what you have sent. We will safely store the rest following professional advice on preserving historical materials. Do you have any suggestions for what you would like to have on display or in what form the display should be arranged? Do you have an inventory of what is contained in each box?

Sometime ago I sent you a floor plan of the building where the display will be arranged which you may wish to refer to in suggesting a form for the exhibit. For example, one suggestion has been to arrange things as they originally were at your home in Wheaton.

Since you will only be in Green Bank a short time, it is important that display cases, benches etc all be prepared before your arrival so that you can supervise setting up the actual display materials, so we would like to have your suggestions at this time.

It is not too early to plan now for your visit. We suggest sometime in April or May 1995 would be most appropriate. Suggest an itinerary and we will look into the ticketing.

We look forward to hearing from you and to your visit next Spring.

Sincerely,
