

RESEARCH CORPORATION

DIVISION OF GRANTS
405 LEXINGTON AVENUE
NEW YORK 17

CHARLES H. SCHAUER
VICE PRESIDENT and SECRETARY

September 14, 1959

Mr. Grote Reber
P.O. Box 2
Green Bank, West Virginia

Dear Grote:

I am not at all surprised and only theoretically disappointed that you ignored my suggestion about my possible visit to MacQuarie Island.

My only involvement during the time you predict you will be in New York is Thursday, the 24th, when I am afraid I will be out of touch all day. As things stand, I should be available for lunch and thereafter on the 22nd, if that appeals to you, and/or the 23rd and 25th. On the basis that the safest operation is to nail things down fast, I'd like to suggest that you come on to the office as soon as convenient on the 22nd and plan on lunch and a little time during that day. If this doesn't look good to you at this point, please make a counter offer.

Thanks for the reprints on your negative feedback note. This is, of course, slightly subversive inasmuch as Research Corporation presented its Annual Award several years ago to Harold Black of Bell Labs for inventions of negative feedback. I'll have to check my archives to find out what date his claim was based on.

Best wishes,

Charles H. Schauer
