Mr. G. Reber,
C.S.I.R.O., Regional Laboratory,
Stowell Avenue,
HOBART,
Tasmania.

Dear Mr. Reber,

In reply to your letter of March 16th, I am afraid I have no pods available of Vigna sinensis or Vigna sesquipedalis at the moment - only seed. You will have to wait until the next growing season for these. If you have a heated glasshouse available, perhaps you would care to grow them yourself.

Yours faithfully,

R.J. WILLIAMS
