

2nd August 1963

Director
Royal Botanic Garden
Calcutta, India

Dear Sir:

We wish to purchase one copy of
"Genus Dioscorea in the East" by D. Prain and
I. H. Burkill; both Part I, 1936 and Part II,
1939. Please advise the availability and price.

Yours faithfully,

Grote Reber

INTERNAL MEMORANDUM

FROM: T:ML

OUR REF.

DATE 25/7/63

TO: Jenny Shone,
Head Office Library.

YOUR REF.

DATED

SUBJECT:

Dear Jenny,

In regards to the enclosed request, we cannot give you any specific pages to be copied, but since there are only 210 pages of interest to us in the first part, we would be grateful if someone would scan through them, making copies of pages and diagrams dealing with vines that twine to the left, that have large seedpods and preferably vines that are annual.

Regards,

Anna.

Dear Anna

There are 2 vols. of 'Species which twine to the left'. Both are $15\frac{1}{2} \times 11\frac{1}{2}$ ". Have copied the list of plates & a couple of sample diagrams for you, am now returning the vols. to the Royal Botanic Gardens. Perhaps Dr. Reber would be able to call in & see them if he's ever in Melbourne. otherwise the Botanic Gardens would probably help him if he cared to write direct to them.
