

5/10/92

Dear Mr. Salter:

Your good letter of 22/9/92 plus many enclosures arrived on 2/10/92. Thanks very much. I'll reply in more detail later.

Recently I discovered a letter dated 29/1/91 from Ian Smythe, Senior Land Officer, Skeena Lands Region, Smithers, B.C. He recommends I become a BC corporation. He will then deal with corporation. Sounds silly. However, I wrote to BC Corporation Registry, Victoria. David W. Boyd, Registrar replied. They cannot issue a corporation license until a name is approved. They sent me a form to get an approved name! Over weekend, I've filled out this form using your name and address as the applicant. The requested name is Cosmic Research Corporation, doing astronomical research. The fee of \$30 has been paid. In a couple of weeks you should get some response. Hopefully, name will be approved. Then I can get on with application for corporation license.

Boyd continues "there are no printed forms available for incorporating a company. A standard incorporating package is available from most stationery stores". Perhaps, up there, certainly not down here. If the above application for name comes thru OK, please secure a package and send to me here. I'll reimburse you for whatever costs are involved. Boyd says "contact the Incorporation Examining Section at 387-7848."

I feel the above is imposing on you. If so, just say so, and I'll drop the subject. I don't have much other avenues open. Eventually, I expect to establish a residence at Port Clements. Thanks again for your assistance. Maybe this project will amount to something yet.

Best wishes,

Grote Reber
