Dear Mr. Williams,

A year and a half ago we had some correspondence about *Vigna sinensis* and *Vigna sesquipedalis*. The matter was left for further consideration. If any seed mentioned by yours of 2/4/64 is available I would appreciate receiving a couple of ounces of each for a further try. Circumstances may be more auspicious this spring. Do you plan to grow any of these plants this year?

Enclosed is a short reprint from "Journal of Genetics".

Yours faithfully,

Grove Baber.
