Mr. Grote Reber,
C.S.I.R.O. Tasmanian Regional Laboratory,
Stowell,
Stowell Avenue,
HOBART. TASMANIA.

Dear Mr. Reber,

Thank you for your letter of 31st March about your results with the Snake Bean varieties I had sent to you. It seems that the introductions we had received were not pure strains and contained a mixture of Vigna sinensis and Vigna sesquipedalis.

I hope you have been able to sort out the plants of interest to you.

Yours faithfully,

R. J. Williams.
RESEARCH SCIENTIST.
PLANT INTRODUCTION SECTION.
