HOBART, TASMANIA

Mr. W. B. Chadwick
 Radio Propagation Division
 National Bureau of Standards
 Boulder, Colorado, U.S.A.

Dear Mr. Chadwick:

This letter follows mine of 8th March. My observations here have been completed and I am packing up my apparatus preparatory to return to U. S. A. I leave here on 14th of September and Sydney on 8th October via RMS Orsova. After about 1st of November my address will be

Grote Reber
 General Delivery
 Wailuku, Maui
 Territory of Hawaii

Please keep me on your air mailing list at my new address to receive F_0F_2 data from Buenos Aires.

Recently I have contacted S.P.I.M. (Society for Prevention of Ionospheric Machines) about Dakar data and a new promise has been received. If anything comes of it, I will turn over to you whatever they may send after I've taken off the spread F part.

Very truly yours,

Grote Reber

P.S. My interim address 14th Sept. to 8th Oct. will be Ionosphere Prediction Service, 5 Hickson Road, Millers Point, N.S.W., Australia

G.R.
