Leslie A. Galloway
1713 Everett St.
Lafayette, Indiana

Dear Mr. Galloway:

On the 3rd of February I replied to your nice letter of the 29th of January but have not heard any further word since.

Please send me some information on the seven homemade radios which you have in storage. If you have some fotos, fine; I'll return the pictures within three days of their arrival here. If no fotos are on hand please draw some sketches showing overall dimensions, dial layout on panel, etc. How many and what kind of tubes are used and are all the tubes present? I realize that one doesn't like to go into a cold attic or barn in the winter, but now that spring is on the way perhaps you could get me some more dope.

Lets hear some details, maybe we can get together???

Very truly yours,

Grote Reber
