212 W. Seminary Ave.
Wheaton, Illinois

Dear Schuyler:

The wedding photographs arrived here in good order. They certainly are fine. Mother put them up on top of the piano right away. She decided that they were so important that my picture disappeared. Guess I'll have to get married and have some pictures taken to hold my place around here.

My plans are to leave here on Dec. 2nd and arrive in Camden on the 3rd. The week end of the 4th and 5th I'll be in Washington to see you people. If the work lasts I'll be in Washington the next week end also. One of the things I plan to do is locate P.C. Keenan and have a discussion with him on the astronomical aspects of my work here. Last summer he gave me his business address as Bureau of Ordnance, Main Navy Building, Tel. Republic 7400, Ex. 62058. I am writing him also. My time is my own and if I can get in touch with him during the week, so much the better.

With transportation what it is I have decided to put up at the Walt Whitman this time. If you have occasion to call RCA this job is being handled thru Drapers division and you can probably get me on Charley Apker's phone. He has plenty of girls to take the message in any case.

I'll be seeing you,

Has Jean found a rug that will please her?
