

21/3/86

Dear Dr. Muldrew:

A telegraph copy of your letter of 21/2/86 arrived yesterday. You may, or may not have received my reply dated 10/3/86. On 6/3/86 I wrote to Larkin Kerwin about NRC acting as sponsor. No reply. Probably you can give me title of "visiting scientist", Guest investigator", or something similar. I've packed and will bring with me the special signal generator for broadbanding the antennas. No problems are seen. I've done this many times before. Quote on crane hire is OK. I'm bringing a sample tuner box as model; also my own grid dip meter modified for this kind of job, plus assorted coils, tools, etc. I plan to arrive Ottawa before noon on 30/4/86. Exact flite details still unknown. I'm beginning to feel considerable urgency on this undertaking. Everything must be in operating order by October to take advantage of winter nites. Winter of 86/7 is near solar activity minimum, the best time for several years. I plan to stay and take all data myself during winter.

Please have your secretary contact some realestate firms and try to locate furnished apartments rented by month. A place near Ashton Site side of Ottawa is most desirable. What do furnishings consist of? Furniture, bed linen, towels, pots & pans, china ware, cutlery, etc.? What will I need to purchase? Too late to send literature here. Have secretary keep it until my arrival.

I do not have a home fone. My Hobart office is over 50 mi away and I'm rarely there. I may be contacted by prior arrangement over fone at Bothwell Post Office. The number is (002) 595-609. Postmistress is Nora Goggins. Hours are 900a to 100p and 200 to 500p Bothwell time. We are 10 hrs ahead of GMT. Ottawa is 5 hrs behind GMT. The above times translate to 600 to 1000p and 1100p to 200a your time. The best time to ring P.O. is 100p our time equal to 1000p your time. Some time the previous day, ring Nora and make an appointment for following day at 100p. She will contact me after work. I'll be at P.O. fone at the appointed time. I'll be in Hobart on 1/4/86. A brief fone contact is much better than mail.

Looking forward to a pleasant summer, autumn and winter at your establishment, I am

Sincerely yours,

*Grote Reber*
