UNIVERSITY GROUNDS,
CITY ROAD,
CHIPPENDALE, N.S.W.

17th May, 1951.

Mr. G. Reber,
P.O. Box 4868,
Cleveland Park Station,
Washington 8, D.C. U.S.A.

Dear Reber,

I was interested in reading your account in Sky and Telescope (March 1951) of your recent eclipse observations. You must have had a tough time trying to make things go at Attu.

On reading the article I noticed that you do not appear to have seen Christiansen, Mills and Yabsley's paper on their similar observations and wondered if our Australian Journal of Scientific Research is available to you in a satisfactory manner. There are difficulties in distribution in some quarters which are not yet fixed. I am enclosing a copy of the relevant reprint which has been in short supply and has not yet had general circulation. Perhaps you could pass this on to Hagen and Haddock at your convenience.

With best wishes,

Yours sincerely,

A handwritten signature in cursive script that reads "J. L. Pawsey".

(J. L. Pawsey)

Assistant Chief of the Division
