Dear Sir:

Just to make sure that your records are in agreement with ours, we are attaching in triplicate for approval blueprints of our drawing #39019-E of the cone and drum covered by your order of January 21 (our Chgo. 907).

Inasmuch as the specifications are more or less clear cut we are, of course, proceeding with the fabricating work, but will appreciate your returning, as soon as you can conveniently, two of the copies with your formal approval indicated thereon.

Very truly yours,

ALUMINUM COMPANY OF AMERICA
