Dear Dick:

In response to your note of February 5th, it sounds as though very good arrangements are under way. They are entirely satisfactory from our point of view with one exception. I see no reason for your paying Grote a salary and billing us for half of it. On that one score, I think it would be best for NRAO to make its own offer and we will work out any arrangements we consider best with Reber himself directly. The billing for materials and such would be entirely O.K., and Grote and I will be able to work those details out. I'll be very interested in seeing his response.

Sincerely yours,

Charles H. Schauer
