

20th June, 1966.

Conservator of Forests,
Forests Department,
PERTH ... WESTERN AUSTRALIA.

Dear Sir,

The May 26th issue of the Australian Post on Page 23 shows a Swiss tree climbing device demonstrated by Tony Ayling. Please send to me information on where this device may be purchased. Any comments about the performance, or lack thereof, will be greatly appreciated. Will it operate on smooth poles free of bark?

Yours faithfully,

Grote Reber.
