

August 10, 1955

TO: Dr. Joseph W. Barker

FROM: Alfred Kelleher

SUBJECT: Funds for Grote Reber (G-209)

As you will note from the attached letter and financial summary submitted by Grote Reber, his last grant from Research Corporation has been expended and he is asking for an additional \$3,500. On checking with Dave Evans I find that the money authorized for Reber to date has been used up. In view of the enthusiasm for Reber's work that has been shown by our Advisory Committee in the past, it seems to me safe to assume that they would recommend continuing support for his work. On this basis and in view of his apparent more or less immediate need for money, would you not agree that we might anticipate such favorable action and advance the money for Reber? This would require your approval, of course.
