Mr. M. H. Bennett,
Clerical Officer,
Tasmanian Regional Laboratory,
C.S.I.R.O.,
"Stowell",
Stowell Avenue,
Hobart, Tasmania.

Dear Mr. Bennett,

Thank you for your letter of 26th October. The procedure regarding use of the Co-60 source at Dandenong is that they are handled administratively by the Control Committee of the Gamma Radiation Research Laboratory (of which I am a member). Complete information about this Committee will shortly be circulated to interested bodies. For the present case I shall make the necessary arrangements myself as very little work is involved and you will hear from the Secretary of the Committee within a few days when and where to send the seed. I do not think any charge will be involved. For your information Dr. E. L. French, C.S.I.R.O. Division of Animal Health, Parkville, Victoria, is the official C.S.I.R.O. delegate on the Control Committee.

Yours sincerely,

A handwritten signature in cursive script that reads 'B. W. Holloway'.
