

12/21/62

Dear Mr. Reber:

I am leaving this afternoon (in an hour to be exact) for a two weeks' vacation. I just want to send this follow-up request for your social security number, or word from you that you do not have such. Since I wrote you, two other requests have come in for this information: from F.W.Means & Co. and from Cities Service Company.

F. W. Means has sent you a check for \$40.00 as a year-end dividend of forty cents per share and an extra dividend of forty cents per share on your Common Stock. I've sent it for deposit to Harris Trust and Savings.

You have received cards from: Frances and Walter Cameron (who wrote: "Did we tell you that we saw your picture at the Seattle Fair? And there was a huge picture of your instrument - plus nice write up. We were proud to know you.") and from John M. King (who sent a clipping about the \$870,000 Radio Telescope at the University of Illinois being dedicated and wrote: "Hope this reaches you by Christmas. Have a wonderful 1963. Jock and I sold our house and moved to a Wheaton apt. Jan. 14. All happened in 3 weeks. That we needed a newer house. Dad fine. All well here. Hope your ear is fine!") and from Dorothy and Jim Reber (who wrote: "Drop by the next time you come thru the U.S.A. We saw your name in Time, nice article. Write us a line about your present project.")

When I return I will pack up the above and any others and send by sea mail.

Mrs. Gormley will be taking over the mail and routine of my work while I'm gone.

I can't do this messy letter over because I haven't time.

Merry Christmas and Happy New Year.

Jennie
Jennie

- plus Castoria, journal reports, etc were mailed on 24/1/63. They were in 6/3/63
