

RESEARCH CORPORATION

DIVISION OF GRANTS
405 LEXINGTON AVENUE
NEW YORK 17

CHARLES H. SCHAUER
VICE PRESIDENT and SECRETARY

February 24, 1961

Dear Mr. Reber:

This time there is enclosed a list of items which you have received here. If you want any of them, please let me know.

Today another batch of mail came from Green Bank and I have started sending card notices of change of address. However, unless you think otherwise, I don't think I will do so when someone is writing you about one of your articles. They are not likely to write again unless they hear from you.

Speaking of which, I am sending you by sea mail letters from people commenting on your articles. Also some letters which seem to be coming in from your advertisements.

I have not been sending you requests for your proxy as a stockholder, assuming that this is one year they can get along without your vote. I hope this is O.K.

Did I ever report that the Solar Department of the Astronomy Department of Czechoslovakian Academie had sent you best wishes for a Happy New Year.

Now that 1960 has passed, shall I just hold your deposit slips from the Harris Trust and Savings Bank until you need them for 1962 tax return?

The General Radio Company (West Concord, Mass) would like to know if you want to receive their publications, including the "General Radio EXPERIMENTER," with their compliments.

Your manuscripts, "Broad Band Amplifier of Nearly Forty Years Ago" and "History of the Cross Antenna," have been returned by The Institute of Radio Engineers.

A few letters are enclosed.

Mr. Kelleher asks that I send you Liz Kelleher's and his best regards. Mr. Schauer returned this afternoon from his trip to Arizona and California but too late to come to the office. The airlines strike forced him and Mrs. Schauer to return from San Francisco by train.

Sincerely yours,

Jennie

Costanza means chert. See Science 20 Jan 61, p 205+6

Received - Grote Reber's Mail

1. Reprint: "The Visibility of the 10-CM Radio-Emissive Region and Its Application in Finding the 10-CM Quiet Sun," by Arthur E. Covington and Gladys A. Harvey (National Research Council, Canada) from The Astrophysical Journal.
2. Two reprints from Mullard Radio Astronomy Observatory, "Proceedings of Observatories," No. 4, 1959 and No. 1, 1960.
3. Reprint from Mullard Radio Astronomy Obs, "The Synthesis of Large Radio Telescopes," by M. Ryle and A. Hewish.
4. Reprint: "Absolute Flux Measurements of Cassiopeia A, Taurus A, and Cygnus A, at 3200 MC/S," by N. W. Broten and W. J. Medd, from The Astrophysical Journal, Sept. 1960.
5. "Observations Radioelectriques Solaires," Oct, Nov., Dec. 1960, from Observatoire Royal de Belgique.
6. List of Publications, from National Research Council, Division of Building Research.
7. Quarterly Bulletin on Solar Activity, October/December 1958, International Astronomical Union.
8. Bulletin de Mesures Ionospheriques, Vol. 1, No. 7-9, 1959
9. Bulletin d'informations ionospheriques & geophysiques, Vol. III, Nos. 11-12, 1958.
(the above two from the Centre National D'Etudes des Telecommunications, France)
10. Le Chef de la Division Previsions, Ionospheriques du C.N.E.T. et ses Collaborateurs, has sent, along with formal good wishes for the New Year, a copy of (in French) "Instructions d'Emploi des Previsions pour la Propagation Ionospherique des Ondes Radioelectriques."

Also, they want to know if you want to continue receiving the above ("Instructions d'Emploi etc. etc.")

11. Castanea has sent a copy of the Dec. 1960 issue which contains your article.
(Incidentally, did I report that the supply of reprints of this article had been received?)
12. Two copies of the February 1961 issue of "Proceedings of the IRE," which has your "History of the Cross Antenna."

Also, copies of Technometer (IIT), and reports to stockholders from various companies.

P.S. Yes, the address of Hagen is
Arlington, Virginia, with the
addition of N. to the street:
3001 N. 2nd Street
