

Mr. Reber:

Some reprints are being sent to you via sea mail. Including "History of the Cross Antenna," which has now been received. The pedometers have also been sent, and I hope the book you wanted is also on its way. It was to be sent directly by the book shop. Check has gone to Stegner. Other things taken care of, I think. Advisory Committee meets next week, with something like 110 applications, so it's been a busy time.

Hope you had a Happy Easter. You must be approaching autumn down there.

Jennie
