CHARLES H. SCHAUER
VICE PRESIDENT AND SECRETARY

August 6, 1965

Both moved on 10/5/65

Dear Mr. Reber:

Your letter of the 30th arrived on Tuesday. I sent the literature from Honeywell to you by sea mail on Wednesday. The prices were: Model 1108 Visicorder, basic instrument, 120v, 60 cycle or 230v, 50 cycle is \$4,925. 105-129v, 400 cycle is \$5,125. Optional accessories: Latensifier, \$150; Filter screen, \$75; Individual input connectors, \$225.

I sent the transistors on Wednesday. They're so small! I hope you'll let me know when you get them as I'm sure I shall worry about them. Incidentally, Raytheon sold only in quantity but they gave the name of a place downtown which carried the things.

6 Aug 65 also
In case you have forgotten about them, the contact prints you wanted some 3 months ago have only just come. They have to do all the official work first, so they said, and just couldn't get around to this. So - I sent them by air mail printed rate so you wouldn't have to wait another 1 - 2 months by ordinary mail. (It really doesn't cost all that much and I had forgotten to ask what your time schedule on this was.)

Someone called today about an ad you had in the Old Times Bulletin about some equipment you were looking for. He says he has some and will either lend or sell. His name and address are: Phil Winegarten, 6761 Alderton Street, Forest Hills, New York, if you want to write him.

Mr. Schauer is in Canada but may be in next week. As far as I know he hasn't made any definite plans for a trip to Australia, but I'm quite sure it wouldn't be in October. There is a meeting of the Advisory Committee the middle of that month and a Board meeting the week after that, among other things.

Sincerely,
