PRESIDENT

Mr. Grote Reber
c/o National Radio Astronomy Observatory
Green Bank, West Virginia

Dear Grote:

Many thanks indeed for your letter of the 12th. Your generosity in making a gift of your patent rights to Research Corporation is, I assure you, much appreciated and we are all deeply pleased. Let's hope we can make something substantial from it.

Your comments on past history and present practice are also most helpful. As to past correspondence, literature, etc., I suggest we let that matter rest until you visit us. If you could spend some time then with Dave Black in our Patent Development Division, we could then decide what, if any, of this would be critical.

Best of luck on your Green Bank dish. I will be looking forward to hearing of your progress when you are next in town.

Most sincerely,

J. W. Hinkley
