Dear Mr. Reber:

Thank you for the note of March ninth and the word of progress which you have made and which apparently has been made for you on Kole Kole. It must be very gratifying to you to have the concrete evidence of the interest and cooperation of the people over there.

We do not wish to burden you with any requests for reports and leave it entirely in your hands to keep us posted in similar informal style of anything which you consider noteworthy as it develops in the progress of construction and in getting into the actual work.

Continuing best wishes.

Sincerely yours,

Charles H. Schauer
