

May 7, 1947.

Memorandum for Mr. Scherer

Dr. Tuve telephoned that you had asked him for suggestions for awards to be forwarded to the Research Corporation through Mr. Schauer, and Dr.

Tuve submits the following names in this connection:

1. Maurice Ewing, Department of Geology, Columbia University
for geophysics
2. Robley Williams, Department of Physics, University of Michigan
for electron microscope techniques
3. Grote Reber, Wheaton, Illinois. Physicist. Engineer with Belmont Radio Corp., Chicago.

But for work with his own private funds on cosmic and solar radio noise.
4. Dr. Carl W. Borgmann, Head of the Engineering Experiment Station, University of Colorado, Boulder.

for his work at the Engineering Experiment Station, including measurements on heat transfer and radiation problems.
5. P. Kusch, Department of Physics, Columbia University
for magnetic spectroscopy
6. Dr. Mark Woods, University of Maryland
for studies of plant cells

Foreign Group

1. D. E. Lea, Trinity College, Cambridge, England

Effects of radiations on cells
2. Andrew Huxley (All Dr. Tuve knows is that he is with the A. V. Hill Laboratory, and thinks is Department of Physiology, University of Cambridge, England.

for applications of mathematics to physiological problems.
