

23rd September, 1964.

Dr. D. Martin,
Officer-in-Charge,
C.S.I.R.O. Tasmanian Regional
Laboratory,
Stowell Avenue,
HOBART, TASMANIA.

Dear Dr. Martin,

Dr. Frankel is in Perth this week at the Wheat Industry Research Council Meeting, and he won't be in Melbourne again until 29th or 30th September. This note, therefore, is merely to acknowledge your letter of 21st September about Dr. Reber's bean mutations, and to explain why there will be a delay in Dr. Frankel's reply.

Yours sincerely,

(E. G. Ellis)

Secretary to Dr. O. H. Frankel
