

RESEARCH CORPORATION

DIVISION OF GRANTS
405 LEXINGTON AVENUE
NEW YORK 17

CHARLES H. SCHAUER
VICE PRESIDENT and SECRETARY

April 15, 1958

Mr. Grote Reber
Wailuku
Maui, Hawaii

Dear Grote:

Thanks for your letter of April second. By copy of material from Emberson, I was aware that things were progressing as far as the Green Bank prospects were concerned. Your presence there should be quite a shot into the arm, as well as possibly a needle in some other locations to the personnel and the program.

We are endeavoring to take care of the finite and fiscal details of your letter. The shipment from Mullard has not yet turned up but when, as and if, we will undertake to receive it and relay it to Green Bank. We will also undertake to have the Marconi packing case dusted off and dispatched in good time to await you in the hills of West Virginia. Similarly with the miscellany we asked about in the last letter.

I'll undertake to get some RCA literature on the way to you sometime this week.

Finally, with your return to the native shore developing some degree of imminence, I'd like to make one suggestion for a stop. Since you wish to see Bolton at Cal Tech this will not complicate things in any way. William A. Woods, Research Corporation's Western Field Representative, is the one member of Research Corporation who might have been most comfortable for you to have seen at any time during our years of correspondence and affiliation of sorts. Bill is, among other things, a radio engineer and electronics man of substantial competence. He has, of course, been extremely interested in your work and adventures, and has regretted the lack of opportunity of having

Mr. Grote Reber

a chance to talk with you about its technical and other aspects. His office (as well as home probably by June) is in Santa Monica, and he would be happy indeed to meet you when you hit this country to help with some of the transportation and facilities problems you may have, as well as have a chance to talk with you. I am sure he would enjoy the opportunity of driving you out to Cal Tech, and I believe you would find his interest stimulating as well.

When your plans for heading eastward start to jell, I'd like to suggest your dropping him a line at 1320 Second Street, Santa Monica, to advise him of your schedule.

I look forward to our next exchange.

Best wishes,

Chap
Charles H. Schauer
