

10/3/86

Dear Dr. Muldrew:

Thank you for your good letter of 21/2/86. It arrived day after I wrote to Belrose. In accordance with your suggestion, I have written to Larkin Kerwin requesting NRC act as my sponsor. He will probably agree and Belrose will hear from him shortly.

I'd like to hurry things up a bit, so I am making arrangements to arrive in Ottawa on Wednesday 23rd April, probably before noon. Exact details in a week or so. I'm bringing with me a special signal generator to tune up antennas. Also I'll need a grid dip meter with a 2 mc coil. Mine is a heavy old thing with vacuum tubes. Please have Ron Hurd, or some suitable person try to locate such a device. If none can be found, perhaps a modern device can be purchased at radio stores.

I'll let you know progress promptly. Please keep Broten informed. Thanks for your interest in my project. I am,

Sincerely yours,

Grote Reber
