MOUNT STROMLO
CANBERRA
A.C.T.

Dr. Grote Reber,
Tasmanian Regional Laboratory,
CSIRO,
"Stowell",
Stowell Avenue,
Hobart. Tasmania.

Dear Grote,

Thank you very much for your letter of October 23rd. We are delighted that the plans for your November 19th Colloquium are firm ones, and all that remains to be done is for you to give us a title.

I am sorry that you cannot stay with the Boks at Stromlo, but I think that you will find the Town House Motel a satisfactory place to be in and there will be no difficulties in arranging for your transport back and forth whenever you wish to be at Mount Stromlo Observatory. I am sorry that I am scheduled to observe with the 50-inch Reflector on both Monday and Tuesday nights. I am not scheduled to observe on Wednesday evening, the 20th of November, and if you can still be in Canberra at that time, it would give Priscilla Bok and me great pleasure to have you come to dinner at our house on that day. Under any circumstances, we would like to have you come to lunch with us at 12.30 p.m. on Tuesday the 19th and we are looking forward to seeing a lot of you informally at other times.

Thank you very much for bringing me up to date on your negotiations with NSF and NASA. By all means feel free to mention my name if NASA should require a reference, for I shall write on your behalf with the greatest pleasure.

Very sincerely yours,

Bert J. Bok, Director
