

16th. October, 1964.

Mr. R. J. Williams,
C.S.I.R.O.,
Mill Road,
ST. LUCIA, S.W.6, QLD.

Dear Mr. Williams,

This letter is to renew some correspondence we had last autumn. Unfortunately our glass houses are not heated. I am wondering if you will be able to continue with the substance of your letter of 11/1/64. Three dozen hills of Vigna sesquipedalis would be ample. Half of these would be used as control. Alternate positions would require some manipulation during the growing season. I will appreciate your consideration, comments and suggestions.

Yours faithfully,

Grote Baber.
