

June 26, 1961

Mr. Reber:

The communication about Rights came in today from the Northern Illinois Gas Company. As you will see, they require your signature. Form 2 would seem to be the place for you to sign since you indicated you wanted to have the Rights sold. Since there was time for you to get the form back to the Company, it seemed to me this was better than trying to explain to them why we didn't have your signature. The check will probably come here and if it does we'll send it on to the Bank. Or perhaps if that is where your dividends go, they might send the check directly to the Bank too.

The Laboratory at Bound Brook called to say that they had received some antique tubes from James H. Stegner, addressed to you. Incidentally, I'm not sure whether I reported it, but I checked with Bound Brook in February and the boxes from Maritime International Co. and James A. Smith did arrive there.

Jennie
