Dear Grote,

I saw your letter to Paul Vanden Bout and was pleased to see that you are planning to come to Green Bank in June.

I am enclosing a floor plan of the building by your antenna that may be useful to you in planning the presentation of your equipment, logs, and records. Since you will only be here for a limited period it will be important to make any needed preparations, such as constructing tables and display cases, in advance of your arrival. Perhaps you can send us a sketch of a suggested layout.

I hope that you received my September 9 letter. If you let us know the approximate volume and weight of the things you plan to send, we can look into the most effective way to send it. I suspect it will need to be sent by air, as surface shipments may take many months to arrive in Green Bank. When the time comes, also let me know your travel plans. We can probably obtain the tickets here cheaper than in Australia, but it will be necessary to make plans at least a few months in advance to get the best fares.

Let me know if you need anything else at this time.

Best regards.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Ken', written in dark ink.

K. Kellermann
