Mr. R. L. Lowry  
Goodyear Aircraft Corporation  
Akron 15, Ohio

Dear Mr. Lowry:

I have failed previously to acknowledge your letter of June 25. Naturally I am disappointed that the existing GEDA equipment does not offer an alternative for a part of the drive and control system for the proposed radio telescope. On the other hand, it is certainly well that a feasibility analysis was completed at an early date, for which I want to thank you very much. I will remember your kind offer of assistance with future problems.

Sincerely yours,

*RME*

Richard M. Emberson  
Assistant to the President
